

Congo Sire of our Dam

Remi (Dam) & SW (Sire) to our puppies

THE BEST PROTECTION FOR YOURSELF AND YOUR FAMILY IS A DOG

Not just any dog but a CANE CORSO. The Corso is a loaded weapon that cannot be taken away from you to use against you or any member of your family; Corsos, are extremely loyal, affectionate and highly protective of its family, especially children. This breed does very well as an estate, house or apartment protector. Corsos make excellent hunting dogs, livestock drovers or will happily join you in jogging, horseback riding, or just watching TV. The Cane Corso is an incredibly powerful & agile athlete that **WILL PROTECT YOUR FAMILY.**

Corsos are not the type of dogs that can be left in the backyard and forgotten; they need attention & affection, their family includes other household pets; Corsos are not a status symbol and are not for everyone. The Corso is a dog that lives with the man and for the man, whose beauty is the result of its form following its functionality. Given attention, the Corso reciprocates with as much intensity and it comes to show a devotion to his master without equal.

Our Cane Corsos, come from World Champion & Italian Champion bloodlines; they are registered with AKC-FSS, NKC, ICCF ARBA. Puppies are all excellent quality for show or breeding: They range in price from \$1500 – 2500.

Females:

Beretta, Blue Brindle
Kimber, Florentine
Gatling, Red

Males:

Sniper, Black w/white chest
Luger, Black Brindle/ w/white chest
